

+ 75 Years Developing The Pumping Technology That Drives Progress

We are a leading manufacturer of pump systems around the globe. Our strength is our ability to develop innovative, efficient and high quality products that are the driving force behind hundreds of industrial processes that move the world forward.

Through high engineering, cutting-edge technology and our vertical integration, we are capable to design complex technical solutions, to select and combine materials and to create the most robust and powerful pump systems in the marketplace.

Our broad product line complies with the most demanding quality standards and industry specifications such as: American Petroleum Institute (API), American National Standards Institute (ANSI), Underwriter's Laboratories (UL), Factory Mutual (FM), National Fire Protection Association (NFPA), ISO and Hydraulic Institute (HI).

Our Mission

Be a worldwide company dedicated to the design, manufacture, sales, and service of pumping technology, distinguished by our quality and ease of doing business with our customers always as the top priority.

Our Vision

Become the Supplier of choice.

Ruhrpumpen at a Glance

- Vertical integration
- More than 75 years of experience
- Operations in more than 35 countries
- + 3,000 employees
- Manufacturing facilities in 10 countries
- +15 service centers
- +140,000 pumping solutions installed worldwide

Products

- Sealless magnetic drive pumps
- General end suction process pumps
- Single stage overhung pumps
- Single and multi-stage between bearings pumps
- Vertical multi-stage pumps
- Submersible pumps
- Pitot tube pumps
- Reciprocating pumps
- Cryogenic pumps
- Horizontal pumping systems
- Packaged systems
- Fire protection pump systems
- Hydraulic decoking systems

Markets We Serve

Our commitment to create innovations that offers reliable solutions to our customers allow us to provide a complete range of pump systems to support core markets as:

- Oil and Gas
- Power Generation
- Chemical Processing
- Water and Wastewater
- General Industry
- Mining

What Sets Us Apart

Ruhrpumpen specializes in the engineering of intelligent pumping systems tailored to your precise needs. We offer complete systems designed to meet complex challenges or provide comprehensive solutions for your unique applications.

We can manufacture any type of pump (subject to testing and lifting limitations) identically in any of our facilities, ensuring uniform standardized design, manufacturing, and testing across all locations.

Our unique structure lets us quickly adapt to diverse customer needs, setting us apart from other pump companies. This agility ensures prompt responses, fine-tuning our solutions to match your distinct requirements.

We engineer systems and units with minimized energy usage, high efficiency, low maintenance needs, and extended lifespans.

Our advanced foundry ensures exceptional product quality and enables complete self-reliance in producing new pumps and swiftly delivering spare parts.

The modular nature of our pumping systems provides maximum interchangeability of components to meet your fluid handling requirements.

Our global service network ensures best-in-class services worldwide, addressing local needs promptly and precisely.

Integrated Global Supply Chain. Designed to ensure seamless operations and consistent quality across all our facilities.

Ruhrpumpen is your Single Source Supplier

- Original equipment
- OEM spare parts
- Installation and startup support
- Repair and maintenance
- Engineering, training and consulting
- Reverse engineering

Manufacturing Plants and Service Centers

Plants & Service Centers

- USA, Tulsa
- Mexico, Monterrey
- Brazil, Rio De Janeiro
- Argentina, Buenos Aires
- Germany, Witten
- Egypt, Suez
- India, Chennai
- China, Changzhou
- UK, Lancing

Service Centers Only

- USA, Virginia
- USA, Houston
- Mexico, San Luis Potosi
- Mexico, Coatzacoalcos
- Colombia, Bogota
- Argentina, Jujuy
- Argentina, Neuquen
- Chile, Antofagasta
- Brazil, Sao Paulo
